CCE International 2019 indicates future trends to corrugated and folding carton industry

From 12 – 14 March 2019 the corrugated and folding carton industry will gather for the 4th edition of CCE International at the Munich Trade Fair Centre in Germany. More than 150 exhibitors from 23 countries have booked their stand space and occupy a net floor space of 5,000 m². Featuring hundreds of exhibitor profiles and product information, the Show Preview is now available to all visitors in print and online. The printed version also includes the exhibition profile, an excerpt from the seminar programme and a professional article about inkjet in corrugated printing production.

The corrugated and folding carton industry benefits from the booming online trade, and the trend towards recyclable and sustainable packaging is boosting significant growth in the corrugated and folding carton industry. 'The economic situation of the industry is thoroughly positive, but it is important to catch up with the latest trends, such as the customers' demand for individualisation and the new opportunities that digitalisation offers', explains Liljana Goszdziwski, Exhibition Director of CCE International, on behalf of the organisers, Mack Brooks Exhibitions. 'CCE International indicates future trends to the corrugated and folding carton industry and remains the most important meeting point for industry experts', says Liljana Goszdziwski.

Open seminars

CCE International continues its successful series of open seminars in 2019. Visitors of the show will be able to benefit from daily expert seminars free of charge. The seminars' focus will be on 'Digital Print' as well as 'Sustainability' and 'Converting Techniques'. Among many other presentations, British Converting will hold a session on 'Digital Print Trends in Short-Run Boxmaking', Sun Automation Group will cover the topic 'Digital Corrugated – Creating Value from the Same Box' and EFI Electronics for Imaging will discuss the topic 'Driving Sustainability with Trailer Planning Solutions'. An up-to-date seminar programme is available on the CCE International website as well as in the printed Show Preview.

Show Preview: Comprehensive information prior to the event

The printed Show Preview with comprehensive information about CCE International 2019 is now available. Visitors can order it on the show website free of charge. The Show Preview

contains brief profiles of many exhibitors and their products, exhibitor lists (sorted alphabetically and by exhibit categories), the exhibition profile, an excerpt from the seminar programme and a professional article about opportunities and challenges of inkjet in corrugated printing production by Marcus Timson, expert for innovative printing applications, and Phil Jackman, Global Product Manager at Digital SunJet. The topic will be further discussed in the seminar 'Developing Inkjet for Corrugated' on 12 March 2019, 2pm, held by Marcus Timson.

In addition to the printed document, an Online Show Preview is available on the CCE International website. By using the online tool and ticking particular exhibit categories, visitors have the chance to create their individual exhibitor list, which only includes profiles that are relevant to them.

CCE International 2019 is highly international

Europe's only trade fair solely focussing on manufacturing and converting corrugated and cartonboard stands out due to the remarkably high internationality of its exhibitors. Trade visitors will have the chance to discover more than 150 exhibitors from 23 countries, who occupy a net floor space of 5,000 m². A great majority of the exhibitors at CCE International 2019 come from Europe, mainly from Germany, Italy, the Netherlands and the United Kingdom. Exhibitors from other regions are primarily from Asia and the United States. Many exhibitors present their machinery and equipment for manufacturing and converting of corrugated and cartonboard live at their stands.

A comprehensive product portfolio along the entire production chain will be showcased at CCE International. The exhibition profile includes raw materials, machinery, equipment and services for the manufacturing and conversion of corrugated and cartonboard: Papers – corrugated and carton board; consumables; corrugating line, equipment and components; corrugated and carton converting machinery; design and CAD/CAM; printing processes and equipment; cutting, creasing and die cutting equipment; ancillary equipment; materials handling and warehousing; pallet strapping and handling systems; MIS and plant scheduling systems as well as waste extraction and baling. With its specialised profile, CCE International addresses buyers and users of machines for the production and converting of corrugated and cartonboard.

Important visitor information

Tickets for CCE International 2019 are available in the Online Ticket Shop. Day tickets are available for €24 online and €38 on-site, season tickets are available for €34 online and €50 on-site. The tickets also grant access to the co-located show ICE Europe, the World's Leading Exhibition for Paper, Film & Foil Converting.

In addition to the Show Preview, the visitor brochure is also available in print as well as for download from the CCE International website. It contains all important information about the show, the exhibition profile, the exhibitor list, the accompanying programme as well as visitor services.

CCE International 2019 will take place in hall B6 at the Munich Trade Fair Centre in Germany. The 11th edition of ICE Europe is once again co-located with CCE International and will be held in halls A5 and A6. Both shows will be open on Tuesday, 12 March 2019, and Wednesday, 13 March 2019, from 9.00 – 17.00 and on Thursday, 14 March 2019, from 9.00 – 16.00.
